

JAPAN INTERNATIONAL WELDING SHOW 2026 TOKYO

Overview of our Exhibition Display

Less Time. More Productivity.

..... HIGHLIGHTS OF THE EXHIBITED PRODUCTS

Discover our latest welding consumables and equipment engineered to improve efficiency and reduce processing time. From advanced FCW products such as the CF Wire Series, SX-HC Series, and SF/FC-DP8, to innovative welding systems including the Pipe Welding System, Powder Cladding Welding System, and 2-Electrode VESWEL™, we offer cutting-edge solutions that support productivity improvements across construction, shipbuilding, infrastructure, and industrial manufacturing applications.

..... FEATURED PRODUCTS

Category	Products on Display
CF Wire	Flux Cored and Metal-Cored Wires for Reduced Preheating Requirement
Construction Building	Metal-Cored Wires for High-Heat-Input Structural Steel Welding
Shipbuilding	Flux Cored Wires for Duplex Stainless Steel Applications
Welding Machine	High-Efficiency Vertical Electroslag Welding System
Plazma Welding	Short-Length Pipe Welding System for Simplified Plasma Welding
Industrial Metal-Tube Optical Fiber Cable	High-Durability Optical Fiber Cables with Reduced Fiber-Breakage Risk

our Booth NO. : **2-32**
